# THE HONORARY DEGREES

## DOCTOR OF SCIENCE — MORROUGH PARKER O'BRIEN

Professor, consultant, authority on hydroelectric problems and hydraulics, he brought to the deanship of the college of engineering of the University of California a lifetime of experience in theory and practice. He has served as director of research and engineering for Air Reduction Incorporated; as a member of many state and national boards on beach erosion; as chairman of numerous professional committees and societies. He is the author of scores of technical articles, significant in their fields. In an era of engineers, he is one of the most notable.

*Presented by Downing B. Jenks, Trustee of Northwestern University*

## DOCTOR OF LAWS — STANLEY FIELD

He has had a leading part in the development of two institutions of which Chicago is justifiably proud—Marshall Field and Company and the Natural History Museum. In hands such as his commerce takes on dignity because it assumes the responsibilities of a profession. As president of the Chicago Natural History Museum, he now lends to educational and cultural problems that administrative talent which made him notable in private industry.

*Presented by Dr. Edgar W. Swanson, Professor of Operative Dentistry*

## DOCTOR OF SCIENCE — WILLIAM BOLLAY

A Northwestern graduate in the class of 1933 and a recipient in 1949 of the University's merit award, he is recognized as a leading authority on jet propulsion and guided missiles. His numerous governmental assignments include service with the Atomic Energy Commission, with the United States Air Force and Navy. His inventions and projects have been vital to the national defense and therefore to the preservation of the interests of higher education. He also helps to determine the shape of things to come. In this distinguished son the University is well pleased.

*Presented by Leonard Spacek, Trustee of Northwestern University*

## DOCTOR OF FINE ARTS — MARIAN ANDERSON

During the past thirty years she has established herself as one of the world's leading contraltos. To her unquestioned eminence in music she has recently added other distinctions. As a gracious representative of her profession, and as a leader among American women, she was selected by the State Department to be our emissary of good will to the Far East. Her tour among these distant countries and alien peoples was a continuous triumph. In this role and also as alternate delegate to the United Nations Assembly, she has represented our culture at its best.

*Presented by Mrs. Carl I. Johnson, Trustee of Northwestern University*

## ONE HUNDRED AND FIRST COMMENCEMENT

### DOCTOR OF LAWS — CHARLES M. SPOFFORD

A lawyer of international fame, he has held positions of trust in some of the country's largest corporations, and has been identified for many years with worthy causes. For two years he was United States deputy representative and also chairman of the North Atlantic Council. He is a trustee of the Carnegie Corporation, the Julliard School of Music, the Union Theological Seminary, and the New York Red Cross. From 1946 to 1950, he was president of the Metropolitan Opera Association. In honoring him we simply confirm the judgment of the governments of the six nations which have awarded him decorations.

*Presented by John A. Barr, Trustee of Northwestern University*

### DOCTOR OF HUMANE LETTERS — BRUCE CATTON

He has won an honorable place in three separate though related fields. As a journalist, he has held positions of national importance—Washington correspondent for Newspaper Enterprise Association, and Director of Information for the Department of Commerce. As a historian, he has received a Pulitzer Prize and a National Book Award. As an editor, he is responsible for the illustrious periodical, *American Heritage*. In *A Stillness at Appomattox* and his other books on the Civil War, it has been his special contribution to distinguish between vulgarization and popularization, to demonstrate that history is an art as well as a science, to prove that readability is possible without sacrifice of reliability.

*Presented by Ray A. Billington, Professor of History*

### DOCTOR OF FINE ARTS — FRITZ REINER

Since 1953 he has been Director of the Chicago Symphony Orchestra. To this task he brings a range and depth of experience rivaled by that of few living conductors. In Budapest, Barcelona, and Buenos Aires; in London, Salzburg, and Rome; in Philadelphia, New York City, Boston and Chicago he has led the major symphony orchestras and opera companies of our time. With his rigorous standards, his refusal to be satisfied with anything short of the highest attainment, he has brought Chicago again to a commanding position in the musical life of the nation.

*Presented by Anthony Donato, Professor of Theory and Composition*

### DOCTOR OF LAWS — EVERETT D. GRAFF

He has been a leading industrialist for more than half a century but his duties as a corporation executive have by no means exhausted his energies. As trustee of the Newberry Library, and as trustee, vice-president, and acting president of the Art Institute, he has helped to make Chicago as famous for its cultural institutions as it is for its private industries.

*Presented by Charles Deering McCormick, Trustee of Northwestern University*

## NORTHWESTERN UNIVERSITY

### DOCTOR OF FINE ARTS — RAYMOND MASSEY

In his dual capacity as actor and producer he has brought to the contemporary stage and screen many notable dramas. He is renowned particularly for such character parts as that of Abraham Lincoln in "Abe Lincoln in Illinois," which he played both on the legitimate stage and in the motion picture version. But whether alone in the stellar role, or co-starring with others, he has been acclaimed for his perceptive interpretations. The list of his performances is as long as it is distinguished. In a field where there are so many luminaries, he shines with a strong, and a steady light.

*Presented by Leigh B. Block, Trustee of Northwestern University*

### DOCTOR OF LAWS — KENNETH FARWELL BURGESS

To this versatile, energetic, and dedicated man of law Northwestern University is particularly indebted. As counsel to public utilities and railroads, as a bank director, as a partner in one of Chicago's most respected law firms, as the author of legal text-books, and contributor to the Harvard, Columbia, and Michigan Law Reviews, he deserves this honorary degree. But especially by his long and distinguished service to Northwestern he has earned it. For the past twenty-six years he has been an active member of our Board of Trustees; for the past twenty-two years he has been President of the Board—an ideal trustee in that he has concerned himself with general policy and broader educational aims, leaving to faculty and administration the actual conduct of affairs. Under his guidance the University has developed greatly in prestige and importance.

*Presented by Payson S. Wild, Vice-President and Dean of Faculties of Northwestern University*

# THE DEGREES IN COURSE

The appearance of a name on this list is presumptive evidence of graduation  
but is not to be regarded as conclusive.
